

ROBERT WOODBRIDGE

# PEOPLE FIRST

## MAKE A REAL DIFFERENCE

### WHY ANOTHER ELECTION?

I know that's what many people ask - but this time you can change things. Last time the vote was won by Conservatives who claimed they were listening to local people. Now another one has resigned.

Tory Councillors will go on to build on our green belt, to sell Swanley's community and sports facilities for development, and now admit that £800,000 have gone from SwanleyTown Council reserves.

We now know - after five councillors have quit the ruling party - that our Town Council is in trouble. It needs real change.

**ONLY YOU CAN MAKE IT HAPPEN**

*Robert Woodbridge*

### Every Vote Will Count

The result in October was

Conservative candidate	319
Robert Woodbridge	318
Labour candidate	304

Action on Town Services

Swanley needs its own plan

Protect parks and green spaces

After destroying Woodlands, Tories are now running down the Olympic. They let the the business go down - then sacked the staff. They are letting Swanley people down.

The tower block plans are gone - for now. But ideas should not come from outside developers, Swanley needs its own plan, by and for Swanley people.

Will you help us stop Sevenoaks councillors, and the government override local people who want to protect green spaces? The threat hasn't gone away.

**A SWANLEY PLAN FOR SWANLEY PEOPLE - SEE PAGE 2**

**SWANLEY MAYORS  
BACK ROBERT TO WIN**

Four recent Swanley mayors support Robert in the election Janet Sargeant, John Underwood, Barrie and Barbara Wigg.

They know it is important for a new, independent voice to help shape our town, and break the 'one party state' which controls so much.

**WE NEED COUNCILLORS  
WHO MAKE A POSITIVE  
DIFFERENCE**

Robert has a great record of public service in Swanley. He stood as a Liberal Democrat before serving as a Labour councillor when the parties worked together for better housing and transport across Sevenoaks District.

When Robert led Swanley Town Council it made profits on community businesses, and used the money to pay for services. Robert helped make Swanley green - bringing solar energy to the Town Council, biodiesel for Council vehicles, more allotments in White Oak and creating the dog free childrens' zone at Swanley Park.

He lives right in the middle of White Oak ward. He has worked in security and is studying law. His big interests are education, transport and the environment.

**I WANT YOUR PLAN FOR SWANLEY**

Swanley has suffered for years from decisions made by others. I've campaigned since 2007 for Swanley to develop its own local plan. Many villages and towns in Kent have done it - like Otford and Sevenoaks town. *We can take control, in Swanley, if we get the community together to do it.*

Last September hundreds of local people filled out our Community Survey. Your message is clear. You want:

- safer streets, action on the volume and speed of traffic
- protection for open spaces and green belt
- transport, schools and medical services and facilities to support new homes
- better shops and facilities for young people, and affordable homes in our town

Will you help us turn these priorities into a plan for our town? I want to see this led by the Town Council, to build the community you want, not one decided in Sevenoaks. As your Town Councillor I will back this 100%

*Robert*
